

Press Release from the Medical Heroes of 2020 – 2021

We believe the evidence from Israel, the United Kingdom, Germany, South Africa and other nations now show that the mass vaccination programs both there and here are responsible for promoting the Delta, Lambda and Iota variants of SARS-CoV-2 and COVID. The evidence now shows the mass vaccine programs have not only promoted the Delta variant but other variants including Lambda and Iota; with other variants to follow.

This vaccine induced promotion of Delta and more infective variants are now responsible for overwhelming our hospitals, doctors, nurses, health care staff and system. Just as the indiscriminate use of antibiotics cause antibiotic resistant infections, so too has the indiscriminate use of these drug vaccines focusing on only one type of spike protein for alpha V1 variant of this virus, resulted in the promotion of more infectious variants of the virus.

We, like the people of Germany and the Toronto Police Union, are calling for the immediate cessation of the vaccine programs until we, your healthcare providers, can determine the amount of harm being caused by these vaccines.

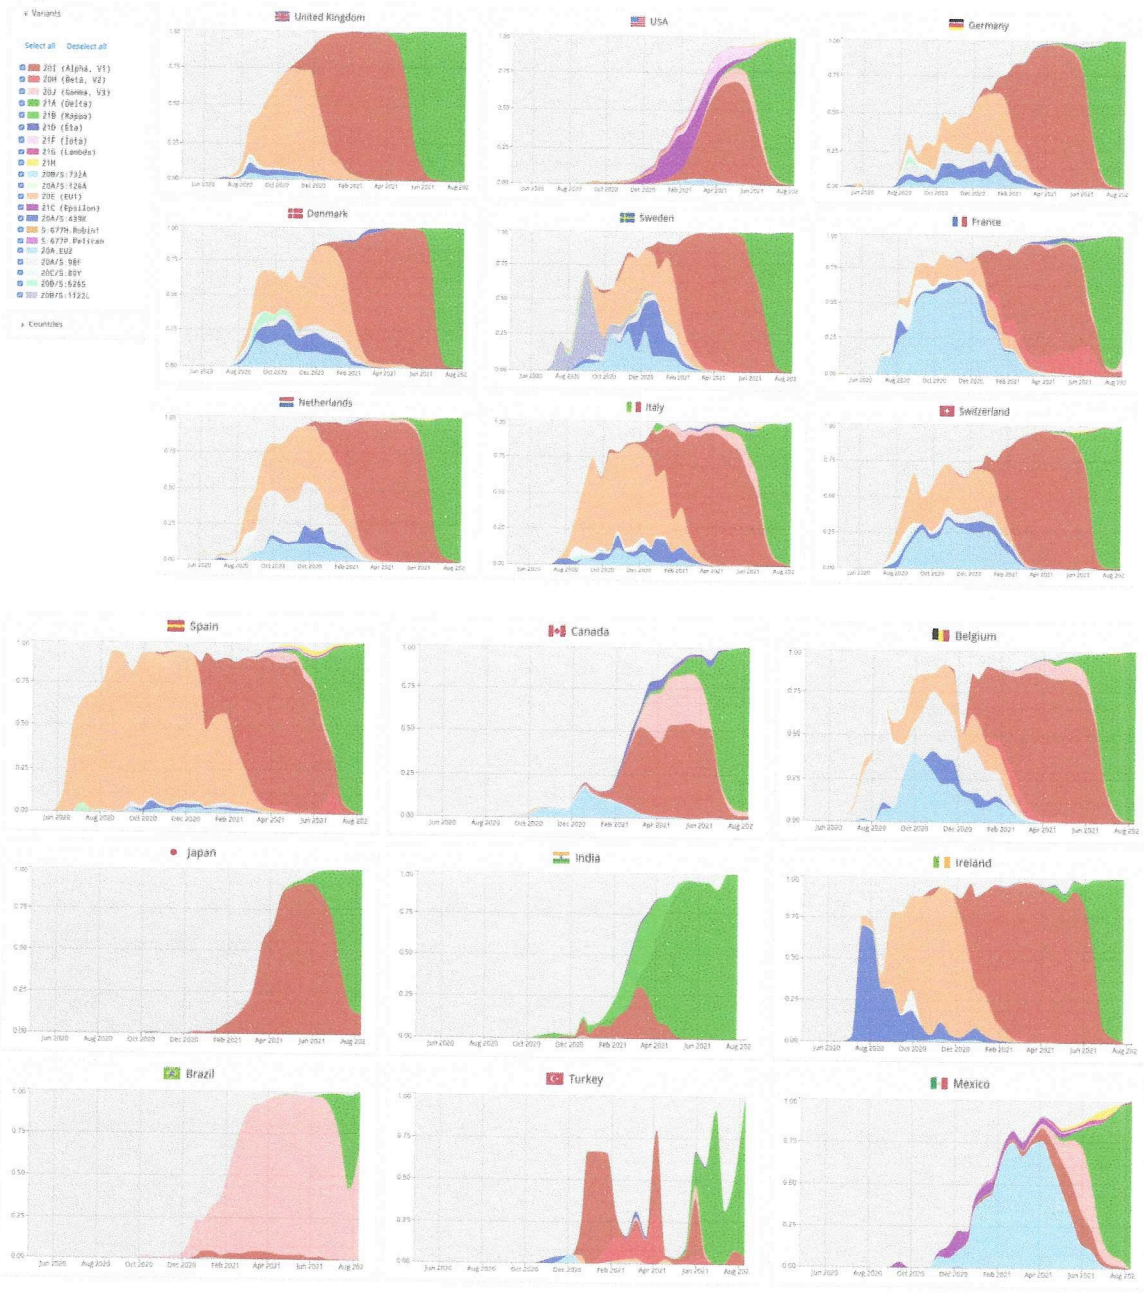

The vaccines have failed to provide protection against infection and spread of the virus, and have encouraged the spread of these more infectious variants. These vaccines have failed to promote immunity against the entire virus and all variants of this virus, which as we have seen previously in medicine is critical to the success of vaccines.

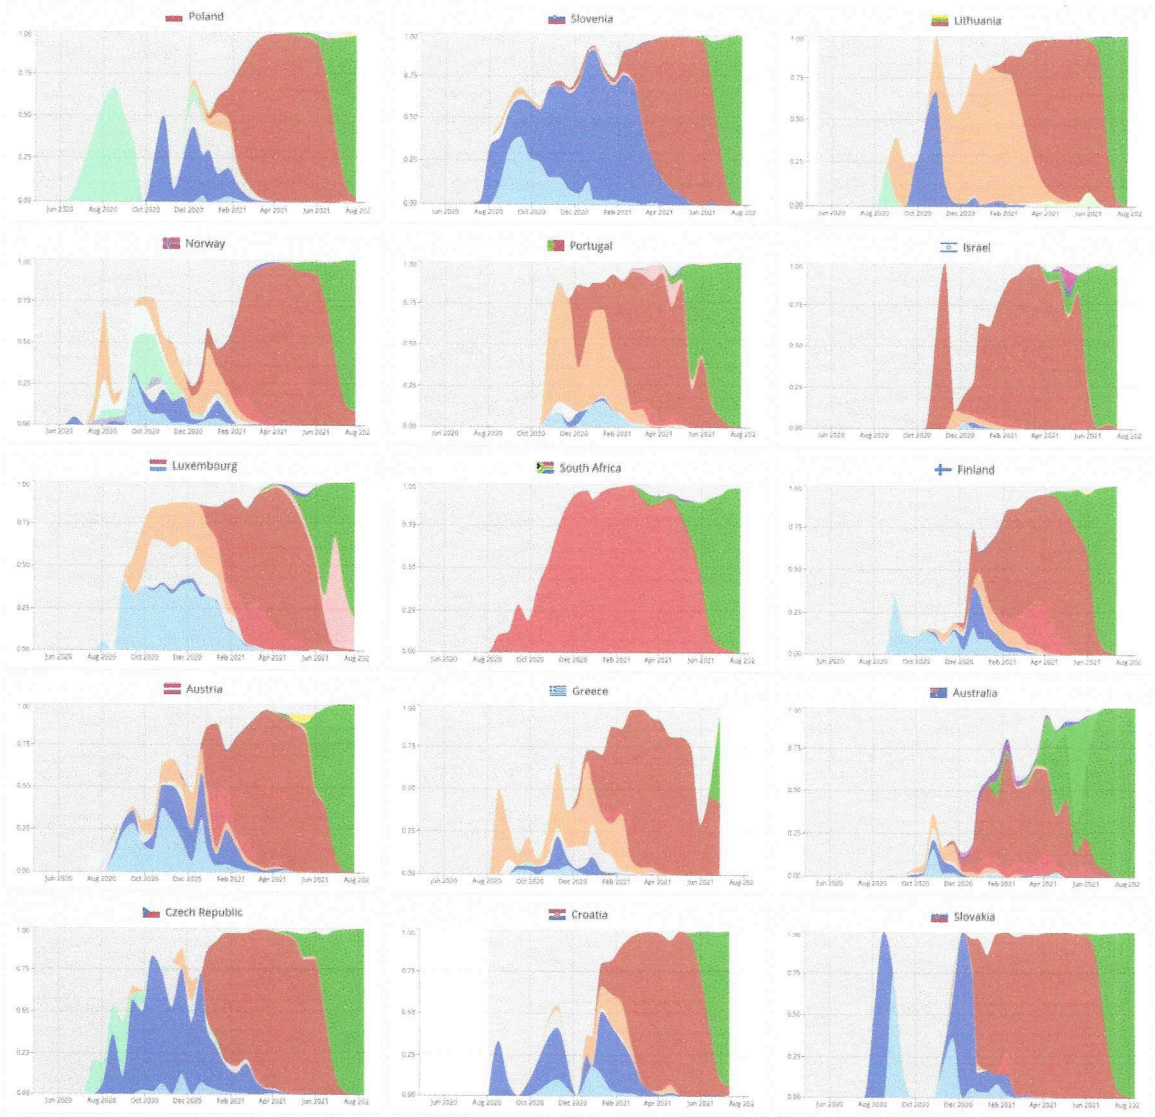

It would be Professionally Irresponsible for us to become vaccinated at this time due to the failure of these vaccines to provide such protection against infection and spread of the virus, as well as apparent promotion of the Delta and other variants as demonstrated in every country where this mass vaccine program has been carried out.

<https://covariants.org/per-country>

If you believe we were your heroes in 2020, we ask you to stand with us at this time of crises as we determine exactly what is happening so we may take better care of you, your families, our families and lastly ourselves.
