

By affixing our signatures below, we respectfully petition both Governor Kay Ivey of the State of Alabama, and the Alabama State Legislature to take the following actions on behalf of the Citizens of the State of Alabama pursuant to the 10th Amendment of the U.S. Constitution as ratified on 15 December 1791.

Whereas: The Spike Protein of SARS-CoV-2 virus is the direct result of Gain-of-Function (GoF) research on Corona Viruses, and

Whereas: this Gain-of-Function research was funded by Alabama and U.S. taxpayers via Federal Agencies, including but not limited to, the NIH, NIAID, DOD, HHS, NSF, and the USAID, and

Whereas: these Federal Agencies have paid monies to multiple Universities, Public and Private Corporations for Gain-of-Function research, in addition to and including but not limited to, Peter Daszak of EcoHealth, who subsequently funneled these monies including but not limited to, Professor Ralph Baric at the University of North Carolina – Chapel Hill, and Professor Shi Zhengli at the Wuhan Institute of Virology, and

Whereas: this has resulted in a pandemic that has cost more American lives than any war in U.S. history including WWII, The Civil War, or all other U.S. Wars combined, and

Whereas: The EUA documents filed by Pfizer, Moderna, and Janssen all demonstrate that the use of these Experimental Drug/Vaccines that include either the mRNA or dsDNA of the Spike Protein produced by this Gain-of-Function Research, do NOT statistically reduce the incidence of COVID-19, and

Whereas: by definition this Spike Protein is pursuant to the terms and conditions of the Biological Weapons Convention Treaty (BWCT) is a violation of the Biological Weapons Convention Treaty, and

Whereas: the failure to require and provide written Informed Consent to individuals being given an Experimental Drug, which these Vaccines are by definition; is a violation of (1) The 1947 Nuremberg Code, (2) The International Covenant on Civil and Political Rights (ICCPR) Treaty, and (3) The American Medical Association (AMA) Code of Ethics.

We respectfully and formally request: That Governor Kay Ivey and the Alabama legislature pass legislation and/or executive action that protect consumers from businesses denying entry to consumers who don't have vaccine or mask pursuant to the 10th Amendment to the U.S. Constitution.

We respectfully and formally request: That Governor Kay Ivey and the legislature provide an exemption from any vaccine documents including vaccine passports for consumers and citizens of the State of Alabama pursuant to the 10th Amendment to the U.S. Constitution.

We respectfully and formally request: That Governor Kay Ivey and the legislature pass legislation protecting consumers from any and types of discrimination if a consumer decides not to wear a mask or take a vaccine. In other words, no business, company, or entity can force its employees or consumers to take a vaccine or wear a mask pursuant to the 10th Amendment to the U.S. Constitution.
